52.223-4001 ENVIRONMENTAL MANAGEMENT SYSTEM (Jul 2007)

RRAD has implemented an Environmental Management System (EMS), which is based on ISO-14001, and is concerned about environmental issues. RRAD desires to conduct its business operations in an environmentally sound manner. Relevant significant aspects will be communicated to contractors (including those used for outsourcing) and suppliers through the bid package where applicable. RRAD expects its suppliers and contractors to provide, at the same quality and price, products and services that have the least environmental consequence of all available options.

Wherever possible, where a supplier's product is causing a significant environmental aspect at RRAD, RRAD will communicate to that supplier that they should select the available option that minimizes the potential environmental impact of that product. Any contractor with plans to be working six months or longer at RRAD must receive EMS awareness training and information on operational controls where applicable. This training is thirty minutes in duration and will be provided by RRAD. A copy of the RRAD Environmental Policy can be viewed on the Depot Website via the Internet.
